Recipients awaiting to be vaccinated

Staff of Garmex client, Choi Manufacturing proudly showing they have been vaccinated.

FCJ held its first Vaccination Blitz at the Garmex Freezone on Wednesday September 15, 2021.

From as early at 7:30 am persons were out to take advantage of the blitz, which was scheduled to run from 8:30am – 3pm.

The blitz targeted FCJ staff, clients as well as their family members, with approximately 300 persons signing up to be vaccinated.

As the country strives to achieve herd immunity, data shows that, to date only 7% of the population have been vaccinated. This shows that the process of ‘getting back to normal’ is on track.

FCJ is in support of saving lives and businesses, especially those in the productive sector. After all we are an enabler and provider of space to SMEs, who make up approximately 80% of our clients operating in manufacturing, agro-processing, and warehousing.

So for FCJ, the opportunity to assist in the vaccination drive to get more Jamaicans vaccinated was a no-brainer. The Ministry of Health and Wellness and the Private Sector have been playing their part to ensure that the country maintains economic growth and job creation.

The day flowed smoothly without hiccups as people milled throughout the various stations to get vaccinated. Chairman Lyttleton 'Tanny' Shirley was on location to give his support.

"The Blitz was very important to encourage the staff and clients of FCJ to get vaccinated. We are very happy to see the positive response to this initiative and we thank the Ministry of Health and Wealth for being here and I am proud of our staff for coming out and getting vaccinated," said Mr Shirley.

The event was a collaborative effort between the Client Service and Human Resource Departments with support from the Marketing and Communications Department.
