

MORANT BAY HIGH SCHOOL ALUMNI ASSOCIATION TOURS MORANT BAY URBAN CENTRE

Morant Bay High School Alumni Association Tours Morant Bay Urban Centre

On Friday, October 11, 2024, the Morant Bay High School (MBHS) Alumni Association participated in an exciting tour of the Morant Bay Urban Centre development. Led by their President, Bertrand Anderson, the group explored the site as part of their 2024 Alumni Week activities, which spanned from October 6th to 12th. The tour, which was organised by the Factories Corporation of Jamaica (FCJ), included representatives from China Harbour Engineering Company (CHEC) and Kencasa Construction & Project Management.

Approximately 60 past students, representing more than seven decades of alumni, participated in the tour. Among them was the oldest alum, Dr. Emerson Henry, and FCJ's Estate Manager, Trouy Stanberry. Dr. Henry, who is a practicing dentist in Kingston, has already expressed formal interest in securing space at the development.

Many of the alumni shared their excitement about the potential benefits the project will bring to St. Thomas, with over 10 attendees expressing interest in leasing space at the development. Reflecting on the experience, the Association's Public Relations Officer, Christin Senior, remarked, "I'm grateful to be alive to witness this".
