## 1) POLICY INTRODUCTION

The Board of Directors of the Factories Corporation of Jamaica Limited (FCJ) (hereinafter referred to as “the Board”) recognises the importance of developing and maintaining best practices geared at managing the company’s real estate assets. Essentially, FCJ’s core business model is that of being the Landlord (owner) - optimally utilizing its real estate assets through the rental and lease of built spaces, facilities and land to tenants (hereinafter referred to as “Clients”) in the public and private sectors. FCJ has therefore developed a Rental Policy, (hereinafter referred to as “this Policy”) that will govern processes related to the rental/ lease application, submission approval, ongoing client relations management, receivables administration and tenancy termination.

This Policy is produced in keeping with the principles articulated in the Financial Administration and Audit (FAA) Act as well as the Public Bodies Management and Accountability Act (PBMA) along with FCJ’s Internal Board Charter. The Rent Restriction Act was also used as reference throughout sections of this Policy.

The FCJ believes that adherence to this Policy will provide structure and consistency to the administration of lease arrangements with its Clients and maintain good and mutually beneficial relations, to not only foster business growth within the productive sector but to also ensure the continued viability of the Corporation. The FCJ, in accordance with its commitment to transparency, accountability, honesty and integrity will employ the terms within the Rental Policy with alacrity and responsibility. Client relations management is an essential tool for business sustainability and this Policy will detail standard operating procedures and principles to support this thrust.

## APPENDIX 1

### CONCESSIONARY POLICY

#### INTRODUCTION

The Government of Jamaica (GOJ) aims to significantly boost productivity and growth in the economy with an initiative that has been dubbed ‘5 in 4’ (i.e., 5% economic growth in 4 years). Factories Corporation of Jamaica Limited (FCJ) will be an important facilitator of the productive sector to realize this outcome. A critical success factor for businesses within our target sectors is the space in which they operate.

#### OBJECTIVE OF THE PROPOSED CONCESSION POLICY

The proposed concession policy is a strategic initiative that will expand the options that are available to existing and prospective clients by enhancing the accessibility and affordability of rental facilities. By extension, the initiative will help to increase the actual revenue generated from these clients in the medium to long term. This will be accomplished by a drive to regularise all tenant accounts that are currently in arrears, as well as, incentivising the utilization of current facilities; particularly those that have been vacant for one year or more.

The program has two overarching aims:

1. To facilitate sustainability through our Review & Rescue Initiative, which will target existing tenants who have not effectively serviced their rental agreement, and
2. To provide rental rate incentives for both existing and prospective tenants through the Attract and Sustain Initiative.

#### REVIEW & RESCUE

The Review and Rescue Initiative is an intervention program for tenants who are unable to effectively service their rental agreements in a timely manner. A review will be triggered when a tenant falls two months into arrears. A meeting will be requested to discuss the state of delinquency, at which point it will be determined if said tenant qualifies for enrolment into the program.
